

Dear golf enthusiast,

If you love to play golf, love an ocean breeze and the sounds of nature, then you will want to visit Tobago's Magdalena Grand Beach & Golf Resort.

The Par-72, 18-hole course has been woven into the landscape of an old coconut plantation. The landscape varies greatly throughout the course with lakes, woodland thickets, beaches, mangroves and wild grass providing each hole with a very distinctive character. The course is a good test of the game for golfers of all levels.

The Tobago Plantations Golf Course is PGA-designed to championship standards. It was designed by Bob Hunt and Marcus Blackburn of PGA Golf Management Ltd., the design, development and management arm of the Professional Golfers' Association of Great Britain and Ireland. It is a certified member of the "Audubon Co-operative Sanctuary System" and was recognized by World Golf Award as the best course in Tobago in 2014.

Magdalena Grand is Tobago's premier oceanfront resort with 178 deluxe oceanfront guest rooms and 22 suites, all featuring breathtaking ocean views from large balconies and terraces. There are 3 oceanfront swimming pools, tennis, spa services, a PADI 5-star dive center, guest activities and a wide range of dining options.

The Island of Tobago has many unique attractions as well as many popular pastimes. You will experience beautiful beaches; exciting water sports activities, incredible snorkeling and diving, and the local history and culture unique to Tobago. The island is a nature lover's paradise with one of the oldest protected rainforests in this hemisphere, beautiful waterfalls, the magical waters of Lil Nylon Pool, as well as a Cocoa plantation, a bird sanctuary and so much more.
